Professional Summary

Graphic and motion graphics designer with more than 15 years of professional experience, spanning advertising design and digital product design.

I have delivered solutions, ideas and designs for companies in Syria and Turkey, founded an independent advertising studio, and work as a digital content creator for platforms such as Envato / Creative Market, producing designs and templates used by designers.

I have taken part as a lecturer and speaker in specialised international events, and I apply my experience to finding practical solutions to creative and technical challenges and to improving ways of working, for the benefit of companies and the community.

I use AI for visual production as a structured workflow, then refine its output, combining AI with animation, design and editing software in one production process, to speed up the work and raise its quality.

I believe in the strength of togetherness, and that teamwork is the key to innovation and progress.

Motion graphics for digital content

Design and animation for social media content

Video editing

3D design (Cinema 4D / Octane)

Templates and visual assets for designers

Most recent first

Work experience

Motion Graphic Designer | Graphic Designer | Video Editor

Reflection Media – Tarikhna on YouTube · 2025 – 2026 · Istanbul, Turkey

- Designed and animated visual content for the Tarikhna YouTube channel, producing motion graphics for historical and media content
- Used AI tools to generate images and video clips (Higgsfield / Nano Banana / Kling / ChatGPT / Claude)
- Combined design, animation, editing and AI tools in one production process

Digital Product Designer

Envato Elements & Motion Array · 2023 – Present · Turkey

- Developing and producing professional digital products and assets for designers and content creators worldwide
- Designing graphic and motion templates, backgrounds and a variety of visual assets
- Publishing and marketing work through Envato / Motion Array / Creative Market / Adobe Stock

Motion Graphic Designer

TRT Arabi · 2021 – 2022 · Turkey

- Designed and animated digital content for social media platforms
- Developed motion graphics elements aligned with the channel's visual identity, in a production environment that demands speed and visual consistency

Motion Graphic Designer

Radio Alkul · 2017 – 2018 · Turkey

- Designed and animated digital content for social media platforms
- Developed visual and motion graphics elements supporting the radio content, and turned ideas and messages into visual content suited to digital publishing

Motion Graphic Designer

Radio Watan · 2016 – 2017 · Turkey

- Designed and animated digital content for social media platforms
- Developed visual materials aligned with the platform's message and identity, and produced motion graphics elements for advertising and digital use

Most recent first

Work experience

Multimedia Designer

GP Tourism · 2013 – 2014 · Turkey

- Designed and animated promotional presentations for the tourism sector
- Produced posters and promotional and marketing materials, and shot and edited introductory and promotional videos

Multimedia & UI Designer

NewBoy · 2010 – 2013 · Syria

- Designed and animated promotional presentations for children's products
- Developed interactive interfaces for educational apps and games for children using ActionScript
- Worked with development teams to deliver a complete, visually engaging user experience

Most recent first

Work experience

Art Director – Game Development Department

Star Animation · 2003 – 2007 · Syria

- Managed production from concept and script through development and launch, and organised tasks within the team
- Bridged the creative, artistic, programming and technical sides within a game and interactive product development environment
- Salati project: an interactive educational product for children teaching prayer

Interactive Content Designer

Abo El Nour Mosque · 2001 – 2002 · Syria

- Developed an interactive educational project teaching Arabic to non-native speakers, based on a specialised textbook
- Worked as a sole designer and developer building the first interactive prototypes

Multimedia Designer

Syria Nobles · 2001 – 2002 · Syria

- Created interactive intros combining animation and design techniques
- Designed and developed interactive websites

Multimedia & Interactive Designer

Mamoun International Center · 2000 · Syria

- Developed an interactive educational project, and designed presentations and user interfaces
- Produced corporate presentations and graduation-ceremony shows using animation and design tools

Projects & achievements

Collaboration with Design Cuts – UK

23 Apr 2015

Invited by the platform's founder to collaborate on digital design bundles; the bundles achieved strong sales and earned revenue.

“You have a real eye for detail that helps to set your work apart.”

Adobe – design licensing

Invitation from Creative Market | 2019

A standing licensing partnership with Adobe for a fair fee, and an encouraging step towards expanding my activity in digital products.

“a great fit”

Invitation from Motion Array

New graphics catalogue

Official invitation from Motion Array to join as a producer in the new graphics catalogue on their platform, which has more than 8 million subscribers according to the invitation.

“an excellent match for it”

Invitation from YouWorkForThem

Licensing digital works

Official invitation to join their own store by licensing my digital work.

“We're big fans of your work”

PIC Istanbul

Technical partner – Istanbul project | 2021 – 2023

A visual documentation project covering Istanbul's tourist and religious landmarks: I handled photography, post-processing and archive organisation, and took part in designing the website.

Independent studio

Independent design studio – founding and creative management in Damascus

2010 – 2014

I founded and ran an independent advertising studio in Damascus and worked continuously with local and regional media agencies. I was responsible for UX design and for the artistic supervision of many digital projects, working with a professional team of developers and content managers.

Talks & events

INGEV | TEAM-UP

Participant and speaker | 2022

A panel talk within the TEAM-UP initiative organised by the INGEV Human Development Foundation, bringing together creators from Syria, Turkey and the Arab countries. I discussed the challenges facing freelancers and ways of selling digital products on platforms.

[Event details](#)

Behance | Istanbul, Turkey

Lecturer and jury member | 2016

I took part as a lecturer and jury member in a local event held to support the design community, within Adobe's Behance initiative. During that period I also worked to secure official sponsorship for the event from parties interested in supporting creativity and design, in coordination with [Bassam Shhadat](#), founder of D&B Academy, who was among the sponsoring supporters.

[Event details](#)

Shababeek Cultural Festival

Artistic participation | Damascus, Syria | 2023

I presented six digital artworks in the visual arts section, centred on combining vector art, digitally processed photographs and 3D elements in one unified visual style.

Jameel Prize

Competition entry | 2010

I was selected among a shortlist of participants after an evaluation process to take part in an art event linked to the Jameel Prize, an international prize founded by the Victoria and Albert Museum in London with the support of the Abdul Latif Jameel Foundation, which aims to highlight contemporary Islamic art. The event was organised in cooperation with the British Council, and the works were exhibited at the National Museum of Damascus. I presented 'Digital Eshani', a digital artwork combining Islamic Eshani ornamentation with animation techniques, using Projection Mapping onto a blank canvas with looping animated elements, which gave the Islamic ornament a lively, interactive character. The work was also reviewed and evaluated in a dedicated session by [Samer Yamani](#), among the selected participants.
