PROFESSIONAL SUMMARY

Graphic and motion graphics designer with more than 15 years of professional experience, spanning advertising design and digital product design.

I have delivered solutions, ideas and designs for companies in Syria and Turkey, founded an independent advertising studio, and work as a digital content creator for platforms such as Envato / Creative Market, producing designs and templates used by designers.

I use AI for visual production as a structured workflow, then refine its output, combining AI with animation, design and editing software in one production process, to speed up the work and raise its quality.

CORE SKILLS

Skills: Art Direction, Motion Design, Graphic Design, 3D Design, Video Editing

Software and tools: Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Cinema 4D, Octane Render, Trapcode Mir, Plexus, Video Copilot Plugins

PROFESSIONAL EXPERIENCE

Motion Graphic Designer | Graphic Designer | Video Editor

Reflection Media – Tarikhna on YouTube | Istanbul, Turkey | 2025 – 2026

- Designed and animated visual content for the Tarikhna YouTube channel, producing motion graphics for historical and media content
- Used AI tools to generate images and video clips (Higgsfield / Nano Banana / Kling / ChatGPT / Claude)
- Combined design, animation, editing and AI tools in one production process

Digital Product Designer

Envato Elements & Motion Array | Turkey | 2023 – Present

- Developing and producing professional digital products and assets for designers and content creators worldwide
- Designing graphic and motion templates, backgrounds and a variety of visual assets
- Publishing and marketing work through Envato / Motion Array / Creative Market / Adobe Stock

Motion Graphic Designer

TRT Arabi | Turkey | 2021 – 2022

- Designed and animated digital content for social media platforms
- Developed motion graphics elements aligned with the channel's visual identity, in a production environment that demands speed and visual consistency

Motion Graphic Designer

Radio Alkul | Turkey | 2017 – 2018

- Designed and animated digital content for social media platforms
- Developed visual and motion graphics elements supporting the radio content, and turned ideas and messages into visual content suited to digital publishing

Motion Graphic Designer

Radio Watan | Turkey | 2016 – 2017

- Designed and animated digital content for social media platforms
- Developed visual materials aligned with the platform's message and identity, and produced motion graphics elements for advertising and digital use

Founder & Creative Director

Independent Design Studio | Damascus, Syria | 2010 – 2014

- Founded and ran an independent advertising studio and worked continuously with local and regional media agencies
- Responsible for UX design and the artistic supervision of many digital projects, working with a team of developers and content managers

- Services: Graphic design, Visual identity, Advertising campaigns, Video production, Website design and development
- Clients included: Syriatel, Star Animation, iLAKTA, 123 JOAL, International Core, Ittihad University, Syria Smart, Vision Axis, GANAMA, European Business Center, Emari Toons, Goody, Nayifat

Multimedia Designer

GP Tourism | Turkey | 2013 – 2014

- Designed and animated promotional presentations for the tourism sector
- Produced posters and promotional and marketing materials, and shot and edited introductory and promotional videos

Multimedia & UI Designer

NewBoy | Syria | 2010 – 2013

- Designed and animated promotional presentations for children's products
- Developed interactive interfaces for educational apps and games for children using ActionScript
- Worked with development teams to deliver a complete, visually engaging user experience

Art Director – Game Development Department

Star Animation | Syria | 2003 – 2007

- Managed production from concept and script through development and launch, and organised tasks within the team
- Bridged the creative, artistic, programming and technical sides within a game and interactive product development environment
- Salati project: an interactive educational product for children teaching prayer

Interactive Content Designer

Abo El Nour Mosque | Syria | 2001 – 2002

- Developed an interactive educational project teaching Arabic to non-native speakers, based on a specialised textbook
- Worked as a sole designer and developer building the first interactive prototypes

Multimedia Designer

Syria Nobles | Syria | 2001 – 2002

- Created interactive intros combining animation and design techniques
- Designed and developed interactive websites

Multimedia & Interactive Designer

Mamoun International Center | Syria | 2000

- Developed an interactive educational project, and designed presentations and user interfaces
- Produced corporate presentations and graduation-ceremony shows using animation and design tools

PROJECTS & ACHIEVEMENTS

- Design Cuts (UK), 2015: invited by the platform's founder to collaborate on digital design bundles, which achieved strong sales
- Adobe, 2019: design licensing partnership, following an invitation from Creative Market
- Motion Array: invited to join as a producer in their new graphics catalogue
- YouWorkForThem: invited to license digital works through their store
- PIC Istanbul, 2021 – 2023: technical partner on a visual documentation project of Istanbul's tourist and religious landmarks (photography, post-processing, archive organisation, website design contribution)

TALKS & EVENTS

- TEAM-UP, INGEV Human Development Foundation, 2022: panel speaker on the challenges facing freelancers and selling digital products on platforms
- Behance (Adobe), Istanbul, 2016: lecturer and jury member; worked to secure official sponsorship for the event
- Shababeek Cultural Festival, Damascus, 2023: presented six digital artworks in the visual arts section
- Jameel Prize event, Damascus, 2010: selected among a shortlist of participants; presented "Digital Eshani", a projection-mapping artwork exhibited at the National Museum of Damascus
